

# 8

# Inheritance and evolution

17.1 Inheritance

DNA and genes

17.2 Chromosomes, genes and proteins

17.5 Monohybrid inheritance

Genetic variation

18.1 Variation

18.2 Adaptive features

Natural selection

18.3 Selection

20.1 Biotechnology and genetic engineering

Genetic engineering

20.2 Biotechnology

Genetic engineering

20.3 Genetic engineering
