## Introduction

These instructions are for the teacher(s)/examiner(s) who are responsible for conducting and assessing the Cambridge International AS Level German Language speaking tests at your centre. In these instructions we use the word 'you' to refer to the teacher/examiner conducting the speaking tests.

### The purpose of the speaking test

The purpose of the speaking test is to assess candidates' spoken performance in Cambridge International AS Level German Language.

To achieve this it is important to:

- create a supportive atmosphere and encourage each candidate to speak
- follow all the instructions
- record the speaking tests of **all** candidates.

### Structure of the speaking test

The structure is as follows:

| Task                                  | Duration                                                        | Task focus                                                                                                                                   |
|---------------------------------------|-----------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------|
| Greeting (non-assessed)               | approximately 30 seconds                                        | The purpose of this section is to give the candidate time to get used to the examination situation, and put the candidate at ease.           |
| Presentation and follow-up discussion | Presentation (2 minutes) and follow-up discussion (4–5 minutes) | The candidate presents a topic of their choice. This is followed by a discussion on the topic of the Presentation.                           |
| Conversation task card preparation    | 5 minutes                                                       | The candidate is given a Conversation task card. They have five minutes to prepare. The preparation must take place in the examination room. |
| Conversation task card                | 4 minutes                                                       | The candidate participates in a conversation with the teacher/examiner based on the scenario provided in the Conversation task card.         |

## Preparation in advance of the speaking test

Before starting the speaking tests at the centre, you must:

- read these instructions, including the mark schemes, carefully.
- read the guidance in the *Cambridge Handbook* about the conduct of non-coursework speaking tests ([www.cambridgeinternational.org/eoguide](http://www.cambridgeinternational.org/eoguide)).
- prepare a list of each candidate's presentation topic to ensure it does not overlap with the topic of the randomised Conversation task card.
- study the candidate prompts for the Conversation task cards and the suggested example questions for your part of the conversation. You may wish to prepare additional questions to help maintain the conversation.
- make sure that there is a quiet room available for the candidates to take the test.
- check that the recording equipment is working properly.
- complete the boxes at the top of the working mark sheet with the correct details about your centre and the exam.

You must **NOT** share the Conversation task cards with candidates before their test.

**Note:** We recommend that one examiner conducts and assesses the speaking tests at your centre for up to 30 candidates. If you are entering more than 30 candidates and need to use more than one examiner, you must all agree the approach and standard of marking before conducting the first test. Please read the factsheet about internal moderation, which can be found on the samples database at [www.cambridgeinternational.org/samples](http://www.cambridgeinternational.org/samples)

## On the day of the speaking test

### Before each candidate's test

You must:

- select a Conversation task card using the Randomisation instructions on page 17.
- find the correct Conversation task card in this instruction booklet for the candidate you are about to examine. Please ensure that the candidate's presentation topic is different from the topic in the Conversation task card. If the Presentation and the Conversation task card overlap in content move to the next Conversation task card in the randomisation table.
- write the candidate's name, their candidate number and Conversation task card number on the working mark sheet.

### During each candidate's test

- 1 At the start of the test, press 'record' on the recording equipment. **Do not stop or pause the recording at any point during the test.**

- 2 Say your name, the candidate's number, the candidate's name, the Conversation task card number and the date. This must be said in **English**. For example:

Teacher/examiner name: *Mr John Smith*

Candidate number: *0031*

Candidate name: *Anita Cheng*

Conversation task card number: *3*

Date: *5 March 2025*.

- 3 Remind the candidate of the structure of the test. There is guidance on this in the Teacher/examiner script for the Presentation and follow-up discussion on page 19 of this instruction booklet.
- 4 Start the timer or look at a clock to note the start time of the test.  
You should monitor the timing for each part of the test:
  - Presentation: 2 minutes
  - Follow-up discussion: 4–5 minutes
  - Conversation task card preparation: 5 minutes
  - Conversation task card: 4 minutes.

You may want to restart the timer for each part.

**From this point onwards, all parts of the test must be conducted in German.**

### **Presentation**

- 5 Greet the candidate. Introduce yourself. This is **not** assessed.
- 6 Ask the candidate to state the topic of their Presentation.
- 7 The candidate will deliver a 2-minute Presentation on a topic of their choice. The Presentation must be in German. Listen carefully to the candidate's presentation.
- 8 You must only interrupt a candidate if the Presentation shows no sign of finishing after 2 minutes, or to prompt a candidate having difficulty in continuing with their Presentation.
- 9 The Presentation will be followed by a discussion in which you will ask the candidate questions on their Presentation. You must ask questions which enable the candidate to provide an opinion(s) in relation to the topic of their Presentation.
- 10 During the Presentation, you can make notes in order to help with asking appropriate questions in the follow-up discussion. Candidates must be prepared to supply additional factual material where appropriate and to express and defend a point of view.

### **Follow-up discussion**

- 11 Thank the candidate for their Presentation and introduce the discussion that will follow.
- 12 Ask the candidate to supply additional information on particular points and to provide a justification for a particular point of view. For example,  
  
*Very interesting. Can you tell me a little more about ...? And why do you think ...?*
- 13 In order to give the candidate every opportunity to do this, you should use open-ended questions (such as 'Tell me more about ...', 'Why ...?', 'How ...?', 'What do you mean when you say ...?', 'What do you think about ...?', 'Can you give me more examples of ...?', 'Some people think ..., – how would you justify your point of view to them?', 'What are the advantages/disadvantages of ...?'), rather than closed questions which may be answered by 'yes/no'.
- 14 When the Presentation and follow-up discussion are complete, tell the candidate that the Presentation and follow-up discussion section of the test has finished and that it is time to start to prepare for the Conversation task card.
- 15 While the candidate is preparing for the Conversation task card, complete the working mark sheet using the Presentation and follow-up discussion mark schemes on pages 11–12.
- 16 Award a mark out of 10 for Presentation, interaction/responsiveness, a mark out of 10 for Language range and a mark out of 10 for Language accuracy using the mark schemes on pages 11–12.
- 17 Write the marks for Presentation, interaction/responsiveness, Language range and Language accuracy on the working mark sheet.

**Remember, you must not stop or pause the recording during a test.**

### **Conversation task card preparation**

- 18 Select **one** Conversation task card using the Randomisation instructions provided on page 17.
- 19 You must avoid giving the candidate a card on the same topic that the candidate's presentation is based on. If there is overlap, move to the next card in the randomisation table.
- 20 Give the Conversation task card to the candidate.
- 21 Say to the candidate in German 'You now have 5 minutes to read the Conversation task card and prepare for this part of the test. You may make notes on the separate piece of paper, but must not write on the task card.'
- 22 Do **not** stop the recording during the preparation time.
- 23 Candidates must complete the preparation in the examining room with the examiner present.
- 24 Candidates are allowed to make notes on a separate piece of paper. Candidates are advised to write key words to help them with the conversation. They must **not** write a monologue that they then read aloud.

### **Conversation task card**

- 25 Go to the correct Conversation task card in this instruction booklet.
- 26 You should start the conversation, using the example questions in this booklet to help you if necessary.
- 27 Listen carefully to what the candidate says and respond appropriately.
- 28 If the candidate does not address a conversation prompt, or answers a question on a prompt very briefly and you think that they could give a fuller response, you can encourage fuller responses by asking extension questions such as 'Tell me more about ...', 'What else can you tell me about ...?', 'Is there anything else you want to say about ...?'.
- 29 When this section of the Speaking Test is finished, complete the working mark sheet using the Conversation task card mark schemes on pages 13–14.
- 30 Award a mark out of 10 for Task completion and communication, a mark out of 10 for Language range and a mark out of 10 for Language accuracy using the mark schemes on pages 13–14.
- 31 Write the marks for Task completion and communication, Language range and Language accuracy on the working mark sheet.
- 32 Also award a mark out of 5 for Pronunciation and intonation for the test as a whole for both the Presentation and follow-up discussion and the Conversation task card using the mark scheme on page 15.
- 33 Write the mark for Pronunciation and intonation on the working mark sheet.

### **After each candidate's speaking test**

- 34 Take the Conversation task card from the candidate as well as the candidate's presentation cue card, if used, and any notes they have made. The candidate must **not** take the Conversation task card and/or the notes with them when they leave the examination room. You must keep them securely until the end of the enquiries about results window.
- 35 Make sure you have completed all parts of the working mark sheet for the candidate.
- 36 Check the test has been recorded and can be heard clearly. If there is a problem with the recording, follow the instructions in the *Cambridge Handbook* about failed recordings at [www.cambridgeinternational.org/eoguide](http://www.cambridgeinternational.org/eoguide)

### **After completing all the speaking tests at the centre**

- Add up the marks for each candidate and write the total mark in the appropriate column. Check all additions carefully.
- If more than one teacher/examiner is marking the Cambridge International AS Level German Language speaking tests at the centre, you must make arrangements to internally moderate all of the teachers'/examiners' marking so that all candidates are assessed to a common standard. You can find further information about the process of internal moderation on the samples database at [www.cambridgeinternational.org/samples](http://www.cambridgeinternational.org/samples)

- You must write the internally moderated marks for all candidates on the working mark sheet(s) and submit these marks to Cambridge International according to the instructions set out in the *Cambridge Handbook* and on the samples database at **[www.cambridgeinternational.org/samples](http://www.cambridgeinternational.org/samples)**
- The centre must submit a sample of candidates' speaking test recordings to Cambridge International for external moderation. Please check the requirements for the centre on the samples database at **[www.cambridgeinternational.org/samples](http://www.cambridgeinternational.org/samples)**
- Each recorded file in the sample must be clearly named using the correct naming convention provided in the *Submit for Assessment Admin Guide*. This can be found on the samples database at **[www.cambridgeinternational.org/samples](http://www.cambridgeinternational.org/samples)**
- Each sample that you submit to Cambridge International must contain a recorded introduction.

This should include in **English**:

- the centre number
- the centre name
- the syllabus and component number
- the syllabus name
- the exam series/year (e.g. June 2025).

Marking of work should be positive, rewarding achievement where possible, but clearly differentiating across the whole range of marks, where appropriate.

You should make a judgement about which level statement is the best fit. In practice, work does not always match one level statement precisely so a judgement may need to be made between two or more level statements.

Once a 'best-fit' level statement has been identified, you should use the following guidance to decide on a specific mark:

- If the candidate's work **convincingly** meets the level statement, award the highest mark.
- If the candidate's work **just** meets the level statement, award the lowest mark.

This is a language qualification aimed at certifying language proficiency at level B1 and B2 of the Common European Framework of Reference for Languages (CEFR). The descriptions below should be understood and applied with reference to CEFR B1 and B2 level.

### Glossary of terms used in the Speaking mark schemes

- **Relevant:** related or relatable to required content points and/or task requirements.
- **Range:** the variety of words and grammatical forms a candidate uses. At higher levels, candidates will make increasing use of a greater variety of words, fixed phrases, collocations and grammatical forms.
- **Linking and cohesive devices:** refers to linking words and phrases (e.g. 'but', 'because', 'moreover', 'it may appear', 'as a result'), as well as grammatical devices such as the use of reference pronouns, substitution (e.g. There are two women in the picture. The one on the right ...), ellipsis (e.g. The first car he owned was a small car, the second a family car.).
- **Less common vocabulary:** appears less often and is used to express ideas more succinctly and precisely.
- **Errors and slips:** **Errors** are systematic mistakes. **Slips** are mistakes that are non-systematic, i.e. the candidate has learned the vocabulary item or grammatical structure, but just happened to make a mistake in this instance. In a candidate's response, where most other examples of a lexical/grammatical point are accurate, a mistake on that point would most likely be a slip.
- **Impede communication:** gets in the way of meaning.
- **Simple grammar:** words, phrases, basic tenses and simple clauses.
- **Complex grammar:** longer and more complex items, e.g. noun clauses, relative and adverb clauses, subordination, passive forms, infinitives, verb patterns, modal forms, and tense contrasts.

## Randomisation instructions

Each candidate must be allocated one of six Conversation task cards. The Conversation task card gives prompts for a conversation. There are corresponding teacher/examiner example questions for each Conversation task card.

The Conversation task cards should be allocated to candidates in sequence as shown in the table below.

- If you are conducting more than 30 tests in a day, return to the beginning of the sequence after the 30th candidate.
- If you are conducting tests on more than one day, start each new day at the beginning of the sequence.
- If a candidate's presentation overlaps with the topic of the Conversation task card they should receive using this randomisation table, skip that card and move to the next card on the randomisation table. Continue with the randomisation table for the following candidates.

Allocate cards and topics to candidates in sequence, as follows:

| Order of candidates | Conversation task card |
|---------------------|------------------------|
| Candidate 1         | 3                      |
| Candidate 2         | 2                      |
