

To what extent is
deforestation
affecting Florida
from the economic
perspective?

Today's presentation

- Key Terms
- The Problem
- My solutions
- Steps taken to solve the Problem
 - - Locally
 - - Globally
- Perspectives
- Conclusion
- Work cited

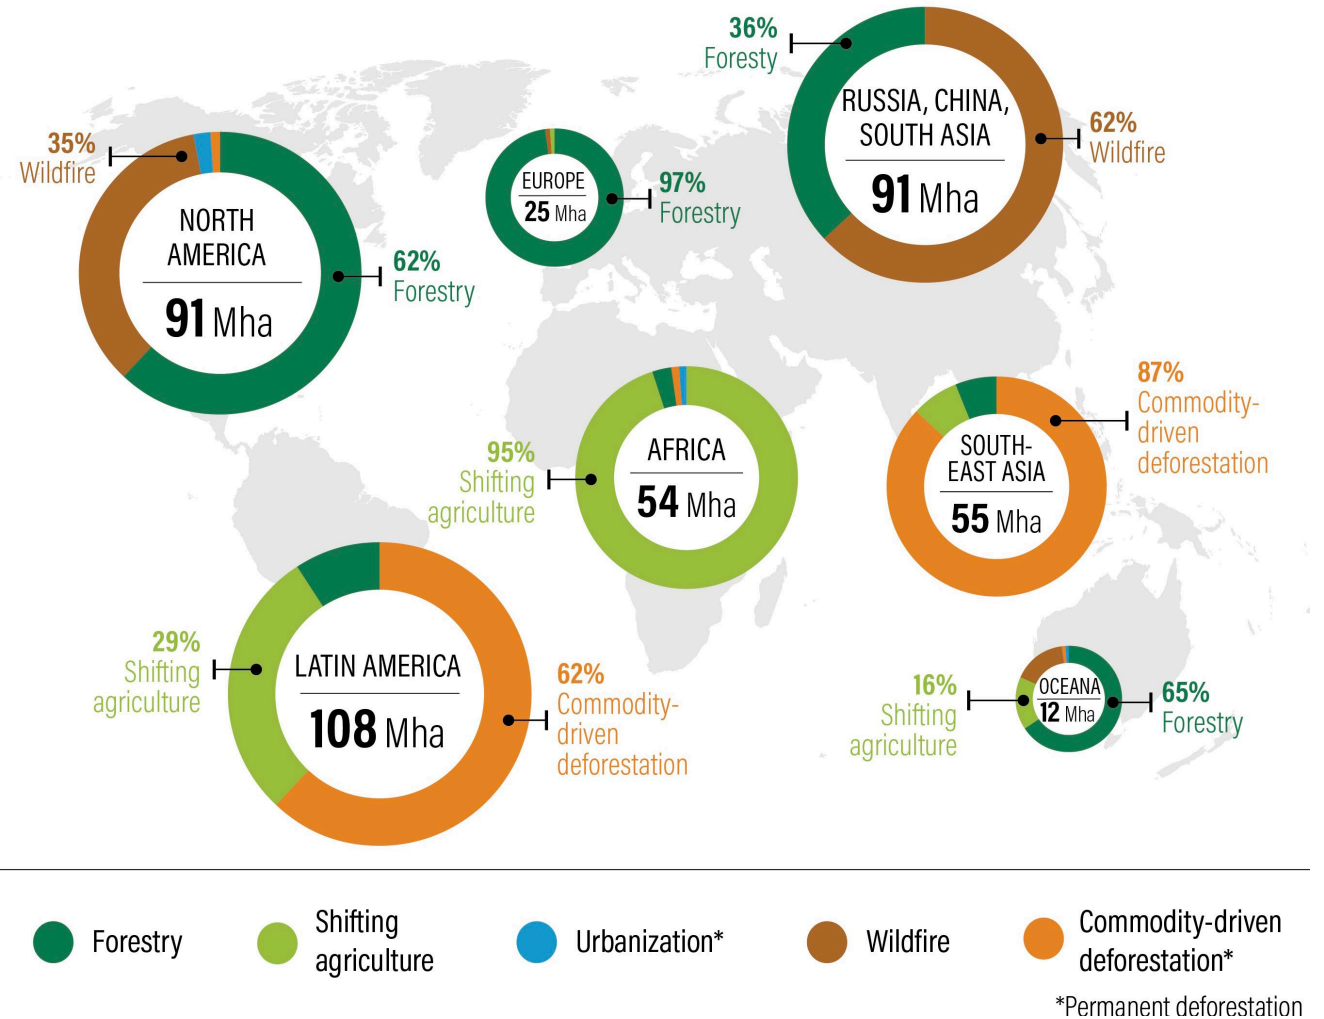

Key Terms

- Deforestation
- Environmental Economics
- Natural resource management
- Natural Capital
- Common-property

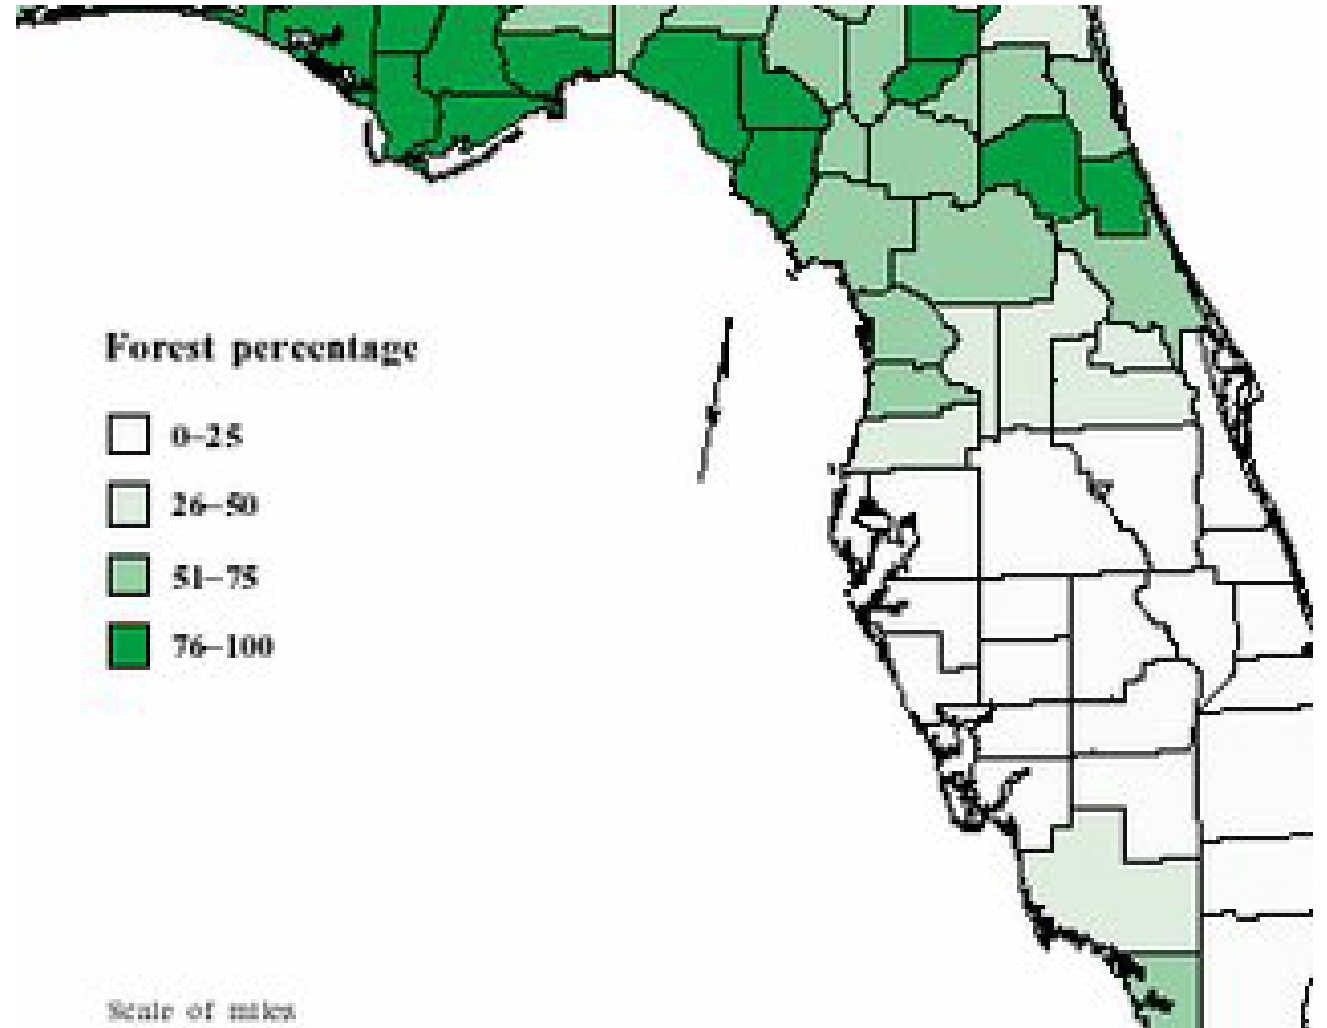

The problem With Deforestation Globally

- Costly
- Lost of natural capital

The Problem With Deforestation Within Florida

- Threat to livelihoods of millions in indigenous population

Ways to prevent Deforestation

- Planting trees
 - Becoming paperless
 - Spread awareness
-

Steps to prevent Deforestation

- Consuming less
- Avoiding Single used packaging
- Eating sustainable food
- Reformation

Perspective

- Group Member A- Culture
- Group Member B- Economics
- Group Member C- Ethical
- Group Member D- Environmental
- Group Member E- Politics

Conclusion

After conducting my research I have learned that deforestation as a negative impact not only on the environment but the economy as well. I also learned how to work with a team to learn different ways and perspectives to approach one topic. Lastly I learned how to properly research a topic. I believed that if we work together we will be able to restore the earth and still be able to make an economic gain. 2 challenges I face where time management and the voice over. My team influenced me the most they were very encouraging and helpful. 3 avenues that I would like to research in the future are overpopulation, evolution in today's society and global warming. I like to end off with the question how can you be apart of a positive cause to effect deforestation?
